

WHY SHOULD I JOIN THE PROSTATE CANCER SUPPORT GROUP?

If you are reading this then you may recently have been diagnosed with Prostate Cancer or affected by it, maybe a family member, and you are not sure which way to turn or who to talk to. This group was formed about 20 years ago, and several of those who joined the group in the early 2000's who still attend our meetings so there must be something good about being with men and their partners who are in the same boat as you. Some of them will have had the same treatment which you are thinking about having or you have had. This is where a lot of help can come from so you know you are not alone. We have all been through the problems that you may be experiencing and sharing these experiences (if you wish) can often help. Always remember, at some time, we have all been where you are now.

Another important thing is you don't have to attend the meetings on your own, bring your wife, partner, carer or friend they will be welcome also.
